

# Services

I provide the following services for private tutoring. I only have limited spots for each, and so it is important to reach out early. My focus for tutoring is centred around strong conceptual understanding, followed by tailored practice to reinforce this foundation.

## Homework Help (High School)

Catering for years 7 to 12.  
Specialises in Chemistry, Physics, Biology, Math Ext 1 & 2. All these STEM subjects demand strong conceptual understanding and theoretical reasoning.

I highly recommend students bring their own materials and difficult questions to sessions.

### PRICING

Year 10 & Under **\$60/h**

## GAMSAT S2 & S3 Tutoring

With a GAMSAT S2 score of 75 and a S3 score of 91, I achieved an overall GAMSAT within the 99th percentile. This came with a strong conceptual understanding that simply cannot be attained through textbooks alone.

Materials include S2 and S3 practice/prep materials, as well as limited GAMSAT mocks.

### PRICING

Single Session (1h) **\$120**

Year 11-12 (excl. Ext 2) **\$70/h**

Year 12 (incl. Ext 2) **\$80/h**

# Medical Interview Preparation

Before my uni melb offer, I spent 3 years to master medical interviews, learning what it takes to deliver unique responses to difficult questions and ethical dilemmas. I can help you achieve the same faster than I did.

Materials: Over 40 mocks tailored for UNSW, UoN, WSU, UniMelb, UQ, Bond, plus panel and MMI questions.

*(Disclaimer: Materials are original and created by me.)*

## PRICING

Consultation **\$150/h**

1x Mock & Feedback **\$175**

2x Mock & Feedback **\$340**

3x Mock & Feedback **\$495**

5-Session Bundle **\$575**

Essay Marking **\$60/paper**

# Why Choose Me?

## Concepts First

*A strong base builds skyscrapers.*

In year 9, I ranked 198/210. By year 12, I was rank 9 with a 99.85 ATAR. The secret wasn't mindless study; it was a deep desire to understand concepts. Simple ideas allowed me to derive complex identities with ease and optimise problem-solving during exams.

## Strategic Practice

*Practice makes perfect reinforcement.*

Continuous practice reinforces concepts like glue. I provide extensive resources to consolidate understanding:

High School Trial Papers

Specific Topic Questions

Difficult Challenge Questions

GAMSAT Materials & Mocks

Over 40 Interview Mocks

## Adapt & Overcome

*"Now... I understand it"*

I only succeeded at getting into medicine at the very end after initial failures. Recovering isn't just trying the same path again; it's about trying something different. I teach the mindset of being open to new experiences and adapting to mistakes to grow.

## Ready to Excel?

Spots are strictly limited. Secure your place and start building your foundation today.
